and clear steamed NNE at 9 PM sounder in
32 fathoms water

Lat By Obs 40. 12 N Long 70 49 West.

Tuesday this day brisk wind from W at 2 PM pilot
July 4 came on board at 8 AM made Gay head steaming
for New Bedford with a good breeze

[Faint, illegible handwriting, possibly bleed-through from the reverse side of the page.]

Handwritten ledger page with multiple columns of numbers and faint text. The page is oriented vertically and contains several rows of data, likely representing financial or inventory records. The text is written in cursive and is mostly illegible due to fading and the angle of the page. The columns are separated by vertical lines, and there are horizontal lines separating the rows. The numbers are written in a consistent style, suggesting a specific accounting system. The overall appearance is that of an old, well-used ledger book.
